Installing AnaPocket

Titley Scientific will pre-install AnaPocket for you when you buy your PDA from us, however if you wish to use a PDA that you have purchased somewhere else then you will need to install AnaPocket manually.

Depending on the type of PDA that you own, you will have to use one of two different versions of AnaPocket.

Please read the chapter "Active Monitoring with a PDA" in the SD2 User Manual version 1.5 (or above) for instructions on which version on AnaPocket to use and how to install them.
