	Genie-Soft The Backup Solutions Company

Greetings From Genie-Soft

"You can upgrade your copy of **GBM Pro Network** to a stronger version of the Genie Backup Manager Pro family which comes with several extra features not available in the Network version distributed with your Infrant Technologies hardware, these include:

• Support for backing up to Tape, CD and DVD devices, FTP and Removable media devices.

• Genie Wipe: A utility for permanently removing deleted files so that they can not be undeleted/recovered again.

• Genie Eyes-Only: Genie Eyes-Only is GBM Pro's stand alone encryption utility; it supports AES encryption in 3 different strengths: 128-bit AES, 192-bit AES a256-bit AES When you upgrade to GBM Pro 5.0 you also get free upgrades to any minor update (5.x), and 1 year of free major upgrades. After the one year period, you will receive special offers on new major upgrades
